A fast-paced multimedia show not to be missed, topped-off by the antics and gliding performances of the real stars of the show, Sabrina & Scooter, the northern and southern flying squirrels. Learn how to make your woodlot “flyer friendly”, determine their presence without actually seeing one, the importance of forest connectivity and why “flyer-free” woodlots will suffer in the long-term.

Bring your camera (nocturnal animals - no flash please).

TRADE SHOW HIGHLIGHTS

- Tree Planting Information
- Forestry Management Services
- Lumber Processing Equipment
- Woodlot Management Services
